GENERAL SUPPLY ELECTRICAL & INDUSTRIAL COMPONENT

**We have partnership
on many principal of
Industrial Controls and
Electrical components
Automation and
Renewable Energy
Industries**

MAINTENANCE, 3R

**Maintenance covers all
aspects of testing,
monitoring, fixing, and
replacing elements of an
electrical system.
Usually performed by a
licensed professional
with a complete
knowledge of the
National Electric Code
and local regulations**

AIOTKU - SYSTEM INTEGRATOR

**We offer you an AIoT
integrated
measurement into
these KPIs:**

- **Energy Management**
- **Realtime Quantity and Quality monitor.**
- **Overall Equipment Efficiency**
- **Realtime OEE monitor**
- **IoT Monitoring**
- **Machine monitoring anytime and anywhere**

ELECTRICAL INDUSTRIAL SUB- CONTRACTORS

**We provides electrical
services , installation
services
of MV Panel, LV,
Transformer or
network of small
distribution panels**

**SARANA
ENERGI
INVESTAMA**

WHO ARE WE ?

PT. Sarana Energi Investama is a dependable and innovative Service & Maintenance Electrical Industrial Subcontractor - System Integrator - Electrical & Industrial Supplier since our holding started since 2006 , SEI has offered clients construction & maintenance programs that ultimately reduce cost and demands, while maintaining stringent quality measures. We are committed to maintaining and developing long-term business relationships, which lead to success for all our partners, customers, suppliers, and working team for industrial and building sector. We will always uphold our company's commitment as a "Leader in the Electrical Industrial Construction and Maintenance Sector"

OUR COMPANY VALUES

We respect the individual, and believe that individuals who are treated with respect and given responsibility respond by giving their best. We are frugal. We guard and conserve the company's resources with the same vigilance which we would use to guard and conserve our own personal resources. We are believers in the Golden Rule. In all our dealings we will strive to be friendly and courteous, as well as fair and compassionate. Quality is a Standard. Our goal is simply to be the best and to continually improve. This is accomplished through focused teamwork, pride in our work, quality controlled systems, and by hiring and educating the best people we can possibly find. Our team members are quality focused. Safety is our Culture. Keeping our employees and our client projects safe are the most important matter to us, and safety will always come first as we strive for accident-free projects. We are committed to safety. Committed to Clients. We feel a sense of urgency on any matters related to our clients. We own problems and we are always responsive. We are client driven, our team members are focused, developed, and proficient on the most advanced technologies, methods, and processes in the industrial engineering, construction, & maintenance sector. We are experts in our field. Our company leaders, management, & employees make our values visible.

OUR EXPERTISE

HIGH PERFORMANCE . QUALITY DRIVEN

DESIGN , SUPPLY & INSTALLATION UTILITY AND RESIDENCIAL , COMMERCIAL, INDUSTRIAL INFRASTRUCTURE

- Design-Build | Design Assist
- Project Management
- 6.6KV , 20KV , 480V and 220V Electrical Power Substation
- Control Panel System
- Building Automation System
- Motor Controls and Variable Speed Drive
- SCADA Systems
- HVAC Installation
- Telecom Systems and Data Networks
- Standby Power Generators
- Backup Power - UPS
- Telemetry - Radio, Cell,
- Fiberoptic
- Instrumentation and Controls
- Interconnection of Solar PV to Grid
- Safety and Security Systems

MAINTENANCE , ELECTRICAL TESTING AND ENERGY AUDIT & MONITORING SYSTEM

- Contract Maintenance
- Infrared Thermography
- Insulation Testing
- Power Analysis
- Ground Testing
- Cable Fault Locating
- Cable and Conduit Locator
- Light Level Measurements
- High Potential Testing
- Genset Maintenance
- Power Quality Monitoring System
- Energy Audit
- Energy Efficiency Studies
- Harmonic Filter Solutions
- Lighting Solution

EMERGENCY TROUBLESHOOTING, UPGRADES AND IMPROVEMENTS

- Emergency Electrical , HVAC Service
- Harmonic Distortion
- Code Updates & Corrections
- Electrical System Upgrades
- Circuit Installation and Upgrades
- Electrical Safety Inspections
- Circuit Breaker Replacement
- Ballast and Bulb Replacement
- Wireless Lighting Controls
- Shock and Fire Prevention
- Dedicated Computer Circuitry

QUALITY

Our quality assurance program follows the industry best practices with effective planning and risk management, aimed at saving unexpected downtime and costs. Our approach to risk management during operation and maintenance focuses on preventative action to minimize costs and ensure that your assets achieve optimum performance for the duration of their life cycle. Proper reporting and record keeping is followed as to keep all the maintenance schedules organized and systematized

SAFETY

Safety always remains a primary concern at Sarana Energi Investama Operation & Maintenance, a key value that is fundamental to our work culture. We have a healthy track record. We achieve high Safety Standards through the right combination of eld procedures, professional attitudes, and dedicated safety staff supplemented with periodical Safety Evaluations during operation and maintenance activities.

- HVAC Test Tools

We provides electrical maintenance service, installation services of MV Panel, LV, Transformer or network of small distribution panels. We have a team of skilled , certified and experienced professionals to provide real-time solutions, providing services 24 hours a day.

Scan to see Project List Documentation

Regular maintenance extends the lifetime of electrical equipment and its various components, reducing the number of potential future problems and breakdowns, ensuring unplanned problem reductions and power failures. In addition, routine maintenance significantly reduces future complications on production lines. All maintenance is done in accordance with manufacturer's instructions and maintenance specifications.

IOT ENABLER

GLOBAL THINKING , LOCAL SPIRIT

AIOTKU IMPLEMENTATION FIELDS

Our main objective is to provide operational excellence solutions in manufacturing industries. Since most manufacturing industries will get the benefit directly We use the TPM system as a baseline to develop our AIOTKU.

Along with key IoT architecture components such as security and privacy, performance and data scaling are important to all applications. We utilise scalable cloud infrastructure, so apps scale automatically and cope with requests as data grows, whether that's during flash points or as more people use an app over time.

We are 'hardware aware' with engineering and hardware experience within the team. This enables us to be part of a wider supply team. Please contact us to discuss multi-disciplinary projects.

OEE Application
Calculate OEE based on sensors.
Performance in real time

Machine IoT Integration
Real time machine condition
anytime anywhere.

CRM
Manage sales team, customer and
projects

Warehouse Application
Make sure anything under control.

Maintenance System
A QR based Maintenance System

Store and Spare part System
Manage cost and ready to use
spare part

WHY CHOOSE US? PT SARANA ENERGI INVESTAMA

Our well-established workforce and long-standing reputation for quality, reliability and the ability to understand customer's needs makes Sarana Energi Investama a real leader in the industry.

ENGINEERING EXPERTISE

With Our Expert to lead the design process, we bring unique talent and ability to all projects. Our team consists of various multi-disciplinary, and helps your company to grow even better

BUDGET CONTROL

We use the combination of our Value Engineering, constructability review and estimating capabilities to allow us to help keep control of the project's budget. We can accurately anticipate cost, while providing alternative cost-saving suggestions to help keep the project within budget.

ESTIMATING & BUDGETING

Our extensive project partnering and design/build experience has given us the opportunity to expand our estimating expertise beyond the traditional take-off used for plan and spec work.

EFFECTIVE INSTALLATIONS

Sarana Energi Investama has a highly trained and motivated merit shop crew of electricians to ensure a cost-effective and quality installation. We have the availability of trained and competent electricians to allow us to fill the crew size at optimal levels throughout the project's timeline.

FOLLOW-UP SERVICE

We take great pride in offering excellent customer service. No job is done until the customer is satisfied with the final product. We offer a professional attitude and take great pride in our work. Our customers have at their disposal a full range of top-quality services for successful projects as well as normal ongoing maintenance. From 24 hour emergency service to preventive maintenance, Van Haren Electric takes pride in their ability to service.

VALUE ENGINEERING

To maximize the effectiveness of our approach to how we do business, we at Van Haren Electric believe we must first obtain and understand the design intent. We will then work with the engineering firm, owner's representatives and general contractor to identify and review alternatives that meet the projects needs. Serving as a team member to provide Value Engineering support is very common for us.
