PRODUCT & SERVICES

INSTALLATION & MAINTENANCE MEP - HVAC DIVISION

PROJECT ENGINEERING

Our rigorous, disciplined project approach to designing new processes & systems ensures effective solutions.

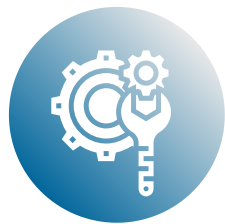

We at SEINVESTAMA carefully and thoroughly outline detailed plans for each project, by setting milestones for each stage and communicating closely with our client on every step of the way until the project has been completed to their satisfaction.

ON-SITE STARTUP & COMMISSIONING

At SEINVESTAMA, we understand that onsite support for commissioning is a crucial activity and hence we provide a skillful team of experienced engineers to ensure that the start-up and commissioning of our system at your plant is smooth.

Our start-up team is capable to manage and reduce unforeseen risks of performance problems and equipment failures. Our team follows standard processes to ensure that the necessary HVAC and environmental criteria have been met before commissioning.

MAINTENANCE SERVICE

SEINVESTAMA provides:

- Emergency Call Out visits (Fixed).
- Scheduled Routine/ Preventive Maintenance (Yearly).

The objective of Maintenance Services is to make sure that the equipment is operating as per the specifications and to maximize its availability, reliability, and efficiency.
